

CABINET DOORS

THERMOFOIL

Durable and rugged, thermofoil doors are an excellent choice for consumers who seek quality cabinet doors at an affordable price point. Thermofoil doors are a practical choice for any room in the office or home including kitchens, pantries, bedrooms, closets, vanities, dens, entertainment centres, garages and even furniture.

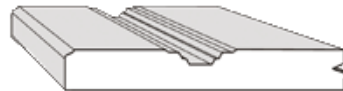

Our thermofoil doors are made using premium grade 3/4" thick MDF board and 12mil vinyl. As a result, thermofoil doors are ideal in high moisture applications such as bathroom vanities. Several colors and styles are available, making thermofoil doors a viable alternative to solid wood cabinet doors.

SOLID WOOD

A timeless tradition, solid wood cabinet doors offer a beauty and elegance which is unrivaled. An excellent choice for kitchen cabinetry, bathroom vanities, desks, closet organization, or any other cabinet project. Solid wood doors come in a variety of styles and wood species. In addition, doors can be stained or painted to virtually any color.

Please note that because wood is a natural product, solid wood doors are subject to natural imperfections. While we strive to minimize these imperfections through use of select woods, we cannot guarantee against them.
